FINANCE

Money Is Only an Idea

More money starts with changing how you think, backed by financial education you build early and in small steps.

Rich Dad Poor Dad
by Robert T. Kiyosaki

THE BIG IDEA

Money is only an idea. If you want more money, simply change your thinking.

4 IDEAS AT A GLANCE

The ideas in this learning

01

Money is an idea

02

Financial education and wisdom

03

Think and grow rich

04

Play it smart, not safe

Money is an idea

How much money you have follows from how you think about money. To get more of it, the first thing to change is your **thinking**, not just the hours you work.

CONCEPT 2 OF 4

Financial education and wisdom

Education and wisdom about money are what really matter. They don't come by chance: you build them on purpose.

IN PRACTICE

Start early, buy a book, go to a seminar, practise, and start small.

CONCEPT 3 OF 4

Think and grow rich

A new book I came across: *Think and Grow Rich*. The title says it all: it's not **work hard** and grow rich, it's **think** and grow rich.

CONCEPT 4 OF 4

Play it smart, not safe

Don't just play it safe. **Play it smart.** Avoiding every risk isn't the goal; making smart moves is.

KEY TAKEAWAYS

What to remember

- Money is only an idea: more money starts with different thinking
- Education and wisdom about money are what build wealth
- It's think and grow rich, not work hard and grow rich
- Don't play it safe, play it smart

ACTION PLAN

Put it into practice

1. Start learning about money now, not later
2. Buy and read a book on money
3. Go to a seminar on money or investing
4. Practise with small amounts first: start small
5. Add *Think and Grow Rich* to my reading list

WORTH QUOTING

“Money is only an idea.”

“Don't play it safe, play it smart.”

IN ONE LINE

More money starts with changing how you think, backed by financial education you build early and in small steps.
